17 July 2019: One of Istria's most popular destinations is set to welcome a wave of new holidaymakers this season, as [Arena Kažela Campsite](http://www.arenacampsites.com/en/mobile-homes-istria/arena-kazela-camping-homes) launches brand-new luxury camping homes.

Available now and located in a secluded spot in Medulin on the southern coast of the Istria peninsula, the luxury additions are part of a major repositioning project and have been beautifully designed to allow guests to get closer to nature and experience the serenity of sleeping under the stars in total comfort.

Coming complete with air-conditioning, Egyptian cotton linen, coffee machines, flat screen televisions, ELEMIS toiletries and free Wi-Fi, holidaymakers will be quick to leave the pegs at home this summer and 'pitch up' in one of the resort's 164 options of Camping Home Next, Camping Home Green or Camping Villas.

Each camping home offers a contemporary living space for up to five people, with the Camping Villas boasting large, floor-to-ceiling windows that let the outside in, with white and teal touches that echo

the blue waters and pebble beaches that are nearby. Conscious travellers will feel at home in the resort's 'Green' camping homes, which are made from ecological and recycled materials and combine modern elements with eco-friendly choices. Finally, the 'Next' camping homes boast smart design and enviable positions on the edge of the resort, a mere stone's throw from the water, offering the perfect place to unwind.

The resort's brand-new Breeze Bar will make sure that guests are refreshed as they relax.

A regular schedule of Pilates and morning exercise or aerobics classes in the sea will keep guests active, whilst sporting facilities that include water-skiing and windsurfing school will allow them to try something new. Kids can while away the hours with dance classes, art experiences and treasure hunts.
